

Pathology Services

Your **study** journey

Certificate III
Pathology
Collection

Certificate III
Pathology
Assistance

University courses
to become a
medical scientist,
laboratory
technician or even
a pathologist!

- Assist in pathology laboratories by **collecting pathology samples** for analysis.
- Includes **drawing blood** and other specimens from patients.
- Requires **steady hands** to safely draw blood using needles.
- Also includes administrative tasks like **record keeping** associated with sample collection.

- Assist in pathology laboratories by **performing tests** on samples.
- Training in **sterilisation** is considered desirable.
- You will be required to **prepare media** used in testing samples.
- The role may also require you to carry out **data entry** in laboratory information systems.
