STUDENT EXPERIENCE GRANTS

The Health Gateway to Industry Schools Project Student Experience Grants are designed to assist schools develop and implement experiential learning activities for students undertaking health-related education or training.

All Health Gateway Schools who have a current, signed MOU with CheckUP are eligible to apply.

Schools can receive up to \$2,500 per school year, preferably through one grant application for one or multiple activities or a maximum of three separate grant applications. In 2021, schools may apply for a retrospective grant for activities that have already taken place in Term 1 or 2.

Grant applications must be submitted using the SmartyGrants platform, which is accessible through the Gateway-2-Health website.

On the grant application, schools will need to include:

- Description of activity/activities
- Aims of the activity/activities
- Number of students participating in each activity
- Breakdown of the budget for each activity
